

TECHNIQUES AND TOOLS FOR GREAT PEDIATRIC DENTISTRY

Dr. Kaneta R. Lott has helped to shape the smiles of hundreds of children. A board certified pediatric dentist, she earned her Doctor of Dental Surgery from Emory University. Dr. Lott is a Fellow in the American College of Dentists and the International College of Dentists. She has served as an Assistant Clinical Professor at The Medical College of Georgia, Department of Pediatric Dentistry. Her private practice of pediatric and orthodontic dentistry opened in 1984 in Atlanta, Georgia where she continues to provide excellent care for her patients. Dr. Lott speaks on Pediatric Dental Health and Dental Traumatology to national and international audiences.

This course will explore the additional skills needed to provide dental care to the pediatric patient including tried and true procedures as outlined below.

The following topics will be covered:

- Appropriate age for a child to have the first dental exam
- How to diagnose and provide treatment plans
- Determine appropriate X-Ray's for young patients
- Appropriate use of fluoride
- How to successfully take an impression
- Benefits of bilateral and unilateral space maintainers
- Necessary and effective pulp therapy
- Effective use of stainless steel crowns
- Current cosmetic options for restoring primary teeth
